

**BALTIMORE COUNTY, MARYLAND
BUREAU OF TRAFFIC ENGINEERING AND TRANSPORTATION PLANNING
INTER-OFFICE CORRESPONDENCE**

DATE: January 13, 2011

TO: Ed Adams, Jr., Director
Department of Public Works

FROM: Darrell A. Wiles, Chief 
Bureau of Traffic Engineering and Transportation Planning

SUBJECT: 2011 Basic Services Maps – Transportation: Report

Our bureau has restudied all of the intersections currently on the Basic Services Map for 2010 as well as continued the update of all other signalized intersections. Based on these studies over the past year, we are recommending the following changes to the Transportation Map for 2011:

ADDITIONS:

None

LEVEL-OF-SERVICE

DELETIONS:

None

CHANGES:

None

As with the final 2010 map, there are seven definite “F” level intersections that are being proposed on the 2011 Basic Services Transportation Map that would control development. Those intersections are:

Harford Rd (MD 147) and Putty Hill Ave	LOS = F
Loch Raven Blvd (MD 542) and Joppa Rd	LOS = F
York Rd (MD 45) and Burke Ave	LOS = F
Falls Rd (MD 25) and Seminary Ave (MD 131)	LOS = F
Falls Rd (MD 25) and Greenspring Valley Rd (MD 130)	LOS = F
Falls Rd (MD 25) and Joppa Rd	LOS = F
Frederick Rd (MD 144) and Bloomsbury Ave-Ingleside Ave	LOS = F

Please note, capacity improvements were completed at Pulaski Highway (US 40) and Middle River Road in the spring of 2010. These improvements by the Maryland State Highway Administration resulted in the level of service at this intersection upgrading from an “F” to a “D”. This level of service designation was approved by the County Council during their 4/27/10 work session.
